

FULL STACK DEVELOPMENT PROGRAM

Creating an advanced digital workforce tailored to meet the most pressing demands
of the industry.

A 6 month immersive, structured online program, scheduled in the evenings to be accessible to everyone. Designed by industry hiring managers to help you land a job in your dream product based company, this program doesn't require any coding background.

PROGRAM HIGHLIGHTS

Become a full stack developer in 24 weeks, by learning through a structured industry relevant curriculum designed by highly experienced hiring managers

PLACEMENT ACCOUNTABILITY

We take personal responsibility to help you land your dream job by providing world class career services - hiring partners, referrals, mock interviews, soft skills and many more.

1:1 MENTORING

Stuck while solving tough coding challenges? We got you covered. Our highly qualified mentor team will unblock you immediately and correct your coding approach.

REAL WORLD PROJECT

Strengthen your resume and get industry ready by working on real-life full stack projects under the guidance of industry mentors who will review your codes to suggest best industry coding practices.

1:1 CAREER COACHING & MOCK INTERVIEWS

Interact with industry mentors, who will guide you personally in 1:1 sessions. Regular mock interviews will help you become interview ready

OFFLINE/LIVE, INTERACTIVE CLASSES

Daily live classes, taught by experienced, highly qualified working professionals. Classes are scheduled in the evenings to meet the needs of everyone.

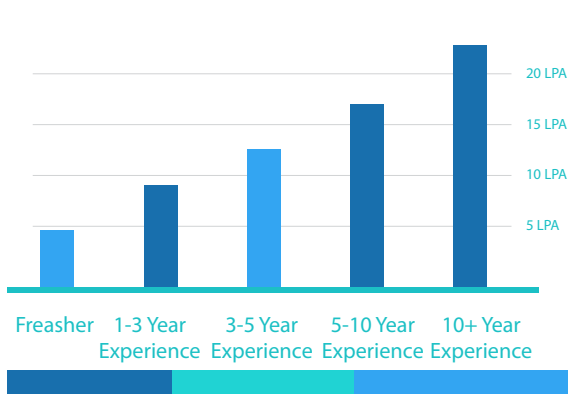

Why To START COURSE

Employment of software developers is projected to grow 21 percent from 2018 to 2028, much faster than the average for all occupations. Software developers will be needed to respond to an increased demand for Digital software.

AVERAGE PAY PACKAGE

INCREASING DEMAND

77% of companies believe that insufficient digital skills constitute a key obstacle to their digital transformation

INCREASING SALARY

Technology companies are paying the most Microsoft, Apple, Amazon, Alphabet, Facebook and the list goes on

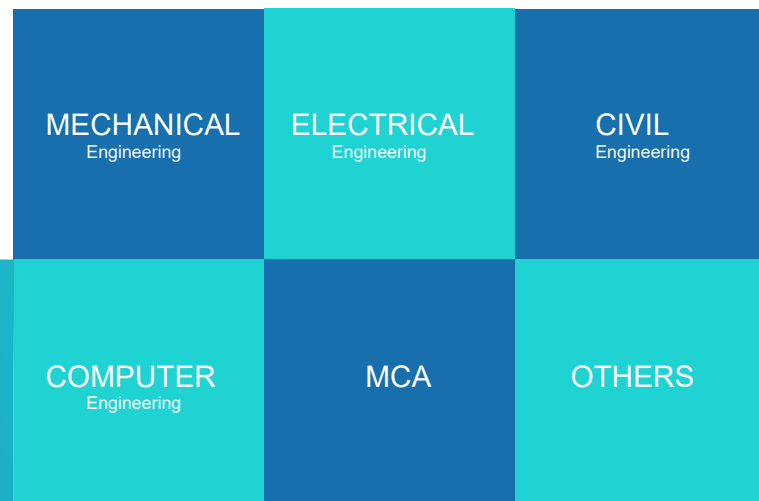

EVERYTHING DIGITAL

In the age of digital revolution, digital is touching all the industries and making traditional jobs redundant.

Abhisek Gaur

Attaining excellence in coding necessitates comprehensive support, a need met flawlessly by Achievedge E-Learning. Through personalized mentoring, simulated interviews, daily coding drills, and a meticulously designed curriculum, I found myself conquering my weaknesses and becoming interview-ready. The transformative impact of this bootcamp is undeniable; I'm confident you'll sense the profound difference upon joining

12 LPA Zomato

Neha Rai

As a mechanical engineering student without prior coding experience, I dedicated myself to daily lectures and practice sessions, gradually enhancing my coding prowess and problem-solving acumen. Engaging in weekly mentor meetings and mock interviews significantly bolstered my confidence across the board. The comprehensive bootcamp provided me with invaluable real-world industrial exposure. Reflecting on my journey.

07 LPA Zomato

Rishal Kushwah

After graduating in 2021, I joined Achievedge, recommended by a friend. The program's pressure to complete tasks sharpened my skills in DSA and Python, empowering me to compete effectively. Accessible mentors provided invaluable support, while interview preparation boosted my confidence. My time at Achievedge was both rewarding and memorable.

07 LPA UNILOG

Soumya Singh

During my prior employment with a service company, I sought a reliable platform for transitioning my career path, which led me to discover the Achievedge Fullstack Bootcamp. The curriculum is meticulously crafted, and the one-on-one mentor sessions proved invaluable. Our mentors were readily available to address our queries, ensuring a supportive learning environment throughout the program.

	3.1	— Introduction to JavaScript and control flow
	3.2	— Functions and Arrays
	3.3	— Objects DOM manipulation
	3.4	— ES 6
04	—	React
	4.1	— React introduction base features and syntax
	4.2	— Conditional rendering
	4.3	— Debugging React app
	4.4	— Advance concepts in React
	4.5	— Component lifecycle
	4.6	— Routing and SPA (Single Page Application)
	4.7	— Server side integration
	4.8	— Hooks
	4.9	— Redux

Backend Development course content

05	—	Data Structure and algorithm
06	—	Introduction to backend and Nodejs
07	—	Working with Asynchronous Programming.
08	—	Working with http request response.
09	—	Express Js
10	—	Express Js with Mongo DB

ROHIT GIDOLIA

CEO and Founder

As the founder of EIBO Services Pvt Ltd, I've gleaned invaluable insights from countless interviews and interactions within the software industry. Through this journey, it became apparent that many individuals are uncertain about how to kickstart their careers in software development.

Drawing from this experience, our mission at EIBO Services is clear: to guide aspiring developers onto the right path. With a wealth of knowledge accumulated over years of industry experience, we understand the challenges and complexities of the software world. Our aim is to empower individuals with the necessary skills and guidance to embark on successful software development careers. Join us as we pave the way for the next generation of innovative developers."
